PowerCon® is a lockable 3-pole equipment (AC) connector with contacts for line, neutral, and pre-mating safety grounds. It is rated at 20A/250V AC. Color coded for easy identification, **PowerCon®** offers power-in (blue) and power-out (gray) versions with different keying to avoid the possibility of inter-mating. This cable is professionally assembled in our Elite Core Audio Shop and is used for powering a variety of sound and lighting equipment.

- > Connectors: Blue Power-In, Gray Power-Out
- > Different Keying to Avoid the Possibility of Inter-Mating

PowerCon A-B 20Amp assemblies are used in conjunction with DMX stage lighting systems.
